

# Review of [Brandy Didder](#)

by the Stroke King's [Adult Reviews](#)

## Introduction:

Brandy Didder is a [Teen](#) , [Solo Girls](#) , [Lesbians](#) site. A self-proclaimed, "really good girl with a little bit of a dirty side" BrandyDidder is hot for sex. New to the porn business, she gets super turned on knowing that you are watching her masturbate, strip and get it on with her Lightspeed Teen network girlfriends.

## Review:

[Brandy Didder](#) is an 18-year-old little minx that is starting to explore her sexual prowess. New to the industry, she is learning from all the other Lightspeed girls the ins and outs of a woman's body. [Taylor Little](#) teaches Brandy how to masturbate in a super hot scene and [XXXRaimi](#) and Brandy share a girl on girl afternoon roll in the sheets. Most of the material on Brandy's site is softcore with some girl on girl fingering but it's all hot and the pussy will make your cock hard and your mouth water.

Brandy is a newbie to porn. She is young and ambitious and knows that she loves to feel sexy and slutty and aches so badly to have sex. After hooking up with the Lightspeed Teen network, things started to fall in place for Brandy and her sexuality began to blossom. She currently has 10 videos posted to her site with more on the way. As a member, you will get to watch her progress from a giggly 18-year-old that is shown how to masturbate by veteran Lightspeed girl [Taylor Little](#), to a star in her own right. All of the video content from BrandyDidder gets posted at a resolution of about 480x360. That gives you a pretty good image when you watch it at its normal viewing size. 480x360 is not a super hi-resolution though so you will experience some image degradation as you stretch it toward a full screen view.

As a Lightspeed Teen network member, you will have the option to download your video content in a number of different ways. Each video clip is available as a .wmv, .mpeg, Quicktime, ipod/psp or mobile 3g2 file. So whether you watch porn in your basement on a PC, in your kitchen on a Mac or on the train from your ipod, Lightspeed has a file for you. The also made the site broadband and dial-up friendly. For broadband users, scenes are available in full format. This allows you to download the whole scene in one shot. These files are big and can range from 20 to over 100MB each but they are easily

handled by a broadband connection. Dial-up users will want to stick to the .wmv and .mpeg files. These have been edited into small clips that average about 8MB each. So instead of downloading the entire scene in one shot, you download the entire scene in a series of smaller segments.

Newbies and veterans alike will find the Lightspeed network fairly easy to navigate. Once you establish your membership, you will be asked to log onto the main Lightspeed hub. From here, you can see at a glance which sites you have access to with your membership. To access BrandyDidder, just click it and you're transported directly to her site. All of the content on her site is displayed under various headings. There are sections for "what's new" and "most popular". The links here in will bring you to both photo and video content. If you are looking specifically for photos or specifically for videos, you are better off looking under the "photos" and "videos" headings.

BrandyDidder has 35 hi-quality photo sets posted to her site and since she is currently updating every Thursday, this number is only going to increase. Professionally lit, shot and posed, these images are hot. Their resolution is 800x600 so you may not be lining your walls with poster size prints, but they are definitely worthy additions to your digital image collection. Each set features over 50 individual photos providing members with access to over 1750 images.

Access to all this will cost you \$39.95 a month for the premium package. When you join BrandyDidder you are joining the Lightspeed Teen network of sites, which is good news for new members. Lightspeed specializes in the 18 to 20 year old model range so you can expect to see sites that feature sexy girls that are just breaking into the business. Content runs the gamut from softcore to some hardcore scenes. Most of the sex is girl on girl but there are some guy on girl scenes thrown in. The premium package will give you unlimited access to BrandyDidder as well as access to 30 other sites in the network. [JordanCapri](#), [LightspeedSorority](#), XXXRaime, [FaithLightspeed](#), LightspeedUniversity, [Reel18](#), [DanaLightspeed](#), [LittleTroubleMaker](#), [ToriStone](#) and [AshleyLightspeed](#) are a few examples of some of the other sites you will have access to with your membership.
