

# Review of [Busty Solos](#)

by the Stroke King's [Adult Reviews](#)

## Introduction:

Busty Solos is a [Big Tits](#) , [Sex Toys](#) , [High Def Porn](#) site. Watching a beautiful girl fingering herself into a frenzy is a wonderful thing to behold. Having it filmed in crystal-clear HD quality makes it even better. You'll feel like you're right in the room with these big-titted beauties as they flick their swollen clits and shove toys deep into their holes, until they quiver and cum and rest up for some more.

## Review:

[Busty Solos](#) currently features 39 complete solo masturbation scenes. Most of the scenes consist of single video file that is approximately 12 minutes long. A few of the newer updates feature longer runtimes, and are split into two scenes of equal length. Each BustySolos.com scene features a young, busty slut who gets down and dirty with herself, using nothing but her fingers and a few select toys. And a new scene is uploaded every week.

All scenes are available in 1280 x 720 HD resolution, encoded at a rate of 2Mbps. This quality makes every video simply stunning to watch. The file sizes are also reasonable, at less than 200 megs, since the runtime of each selection is kept relatively the same. The BustySolos content can also be streamed directly from the website instead of downloaded. Both the streams and downloads are also available in smaller .wmv and .mov formats for those who have a slower Internet connection, or want to quickly preview a scene to see if it's worth an HD download. The BustySolos.com site does not use any sort of DRM, so you can keep these vids in your collection for as long as you'd like.

The HD quality of the [Busty Solos](#) videos is enhanced by the careful attention to detail of the producers. Every scene is professionally shot and edited, with first-rate production values, and adequate lighting. The cameras really make the girls look good by staying super close to the action, and every model looks like she was plucked right off a major movie set, because she is meticulously groomed. There are no silly setups, just straight up stripping and masturbating for your viewing pleasure, with enough emphasis on the girl's big tits to make the site worthy of the [Busty Solos](#) title.

After you spend some time at BustySolos.com, you'll wish that the webmasters paid as much attention to the surfing experience as they did to the sets. Unfortunately the members page is not as friendly to surfers as it could be. Rather than being able to quickly find a specific starlet, you'll have to scroll through every page of updates. Some BustySolos girls appear more than once, but you won't know that right away, because the site is only organized by upload date, and no search functionality has been implemented.

The disorganization is especially apparent when viewing the picture sets. There are more picture sets at [Busty Solos](#) than videos, but none are labeled with anything. The picture pages just show a contact sheet of cropped thumbnails, without any model identification, or correlation to a specific video update. This is really a shame, because the picture quality is brilliant. High-end digital cameras produced crystal clear and

huge 1024 x 680 photographs, but you have to really dive deep into the sets to find the real gems. Even the photograph thumbnails are cropped, so you won't know if that toy is in her ass or pussy unless you open up each and every pic.

Membership to [Busty Solos](#) costs \$29.99 per month, and you can sign up with either a major credit card, or via an online check. Monthly BustySolos members are also granted access to the entire Silver HD Network, which consists of 16 sites that all feature HD video downloads in a variety of niches. Each of these sites are updated weekly and on a different day of the week, so every day you login you'll be able to view several new HD quality porn scenes. The network update schedule is included right on the main members page, so access to every new update is just one click away.

This network makes the BustySolos.com monthly price a real bargain, so don't bother with the \$1.85 three day limited trial. If you do, you won't be able to enjoy all of the HD content. And if you don't cancel before the trial period finishes, it will automatically renew at a premium rate of \$39.98 per month, which is \$10 more than if you sign up for the monthly membership right away. And with all of this content, you'll need more than 3 days to see it all.
