

# Review of [Bustyz](#)

by the Stroke King's [Adult Reviews](#)

## Introduction:

Bustyz is a [Big Tits](#) site. Bustyz features girls with some of the biggest tits on the internet today. These tits are so big, you have to be careful not to sprain a thumb as you grab and squeeze them while she sits on your cock. Some are real, some are not. but it's all gOOd.

## Review:

If chicks with big, wait, make that huge tits are what you are into, you owe it to yourself to check out [Bustyz](#). Hand picked by some of the most professional tit scouts on the market, these girls have eye popping and boner producing racks that would win wet t-shirt contests world wide. These chicks are not only gifted with genetic blessing of big knockers, they have the horny gene as well!

All this tit fucking action can be viewed in streaming format or downloaded onto your PC and watched at your leisure. The normal playback resolution for the majority of the video featured is 640x480, which will give you a pretty decent picture. Even when pushed to a full screen view, the image is ok but you may notice some slight blurring. Some of the material from the back catalogue may play back at a slightly lower resolution but this proves that as technology gets better, so do the videos put out by Brazzers.

Most of the files are posted as either .wmv or .mpeg clips making playback super simple since these are pretty standard file types. [Bustyz](#) is also dial-up and broadband friendly although broadband users will have more opportunity for file selection than users of dial-up.

Members that have dial-up connections are going to want to focus their efforts on the one-minute file clips. These clips literally edit an entire scene into one-minute segments that average between 9 and 11MB each. Dial-up users should have no problem downloading these files to their hard drives. Broadband users may enjoy the one-minute clips as well since they allow them to quickly and easily download all the "best" bits of a scene. For example, if you just want to see a girl tit fucking, you can easily see where it starts and finishes and focus your download efforts on just that material.

Beyond the one-minute clips, broadband users will have access to the scene as a whole file available for download or a scene segmented into 5-minute clips. If you choose to download an entire movie, you can expect to see file sizes into the 300MB realm. It may take a while to download but in the end you will have the whole scene from start to finish in your library. The five-minute clips are quite a bit smaller and average

about 50MB each. Since [Bustyz](#) currently has over 75 videos posted to date all members should be able to find an ample selection of material to stroke their king to.

[Bustyz](#) is part of the Brazzers network and Brazzers likes to keep their members happy. So when you join [Bustyz](#) you will gain instant access to a handful of their other sites for free! Full membership will give you access to [RacksandBlacks](#), [BigTitsAtWork](#), HardcorePetites, JuggFuckers, JizzOnMyJugs, [ButtsandBlacks](#), [MommyGotBoobs](#), [BigTitsAtSchool](#), [BabyGotBoobs](#), and DDStarlets. As you can see there is a lot of big tit stuff in the collection but you can also expect to see girl on girl, group sex, anal, oral and some female masturbation solo scenes thrown in. [Bustyz](#) and a number of these other sites are updating on a weekly basis so you will have access to a bunch of new and exclusive scenes every week.

In addition to all this content, get ready to feast your eyes on hundreds of high quality photos that accompany each of the featured scenes. A typical high quality photo set will feature professionally shot pictures ranging from softcore stripping to hardcore fucking. The newer material is presented at a resolution of 600x900 making the images worthy adds to your collection. Each scene will also feature actual screen captures from the movie. These are not quite as staged as the high quality images and they are posted at a slightly lower resolution. But the screen caps zero in on the serious hardcore action depicted in the scene, so the images are more raw and in the moment.

Thumbs up for the site design employed by the Brazzers network. Jumping from site to site in their network is super easy. All you have to do is click the tab for "bonus sites" and you are transported there ba-da-bing. You don't have to stumble back to a main hub to move around which is nice. All their sites are consistent in their layout and they operate exactly the same so once you get to know one, you are good to go. Brazzers uses a tab bar to allow you to switch between their photo content and video content which is awesome since you don't have to be hitting your back button to shift gears.

If you're ready to sign on to [Bustyz](#) it will cost \$24.95 per month or \$49.95 for three months of access. Brazzers will allow you a two-day limited trial of the site at a rate of \$2.95 but since its limited you won't experience full membership privileges. [Bustyz](#) has a well-designed tour in place so check it out and if you are into it go for a full month of membership. It's the best way to really get a feel for the massive amount of smut that will be at your fingertips.

Your boner will love [Bustyz](#).
