Review:

Screw yearly check-ups. These hot babes will have you making weekly if not daily appointments. Stressed? Having heart pains? Need to relax? Let one of these drop-dead gorgeous doctors have a look at you. Their typical prescription for something like that would be a blow-job followed by a good pounding of their pussy till you release all that built-up tension with a killer jolt of jizz all over their faces and asses. And for the ladies, [DoctorAdventures](#) has employed some of the best amateur gynos to cure their cunts. Watch as these beauties bend over and spread themselves wide for their vaginal and anal assessment!

[DoctorAdventures](#) is part of the Brazzers network of pornsites. As such, when you join [DoctorAdventures](#) not only do you get access to all their cock rocking content but you also have access to over a dozen of their other sites in network. You will be able to access so much smut that your hard drive will hurt. Some of the other sites you will be able to access with your membership are: [RacksandBlacks](#), [BustyAndReal](#), [HardcorePetites](#), [JuggFuckers](#), [JizzOnMyJuggs](#), [ButtsandBlacks](#), [MommyGotBoobs](#), , [BigWetButts](#), [BabyGotBoobs](#), and [DDStarlets](#).

Brazzers has included some money saving options into their membership packages. Standard monthly membership costs \$24.95 and this is a recurring fee. If you take the tour and know you are going to really get off on their content, they offer a three-month membership for \$49.95, which provides new users with a nice savings. They also offer the option of a two-day limited trial for \$2.95 but this will renew at \$29.95 if you forget to cancel. [DoctorAdventures](#) is a slick, hot looking site with smokin' sex scenes. If you check out the tour and like what you see, it's worth it to sign on for a full month of access over the two-day trial. With a full month of membership you will have access to both [DoctorAdventures](#) and all of the other bonus sites so you can get a real handle on just how much porn you can view.

It's no wonder that the health care industry is booming. These doctors are hard at work and they never quit. [DoctorAdventures](#) already has over 99 videos posted to date and they are currently updating on a weekly

basis. The majority of the video content will play back for you at a resolution of 540x480 but some of the older material is offered at a slightly lower resolution. If you play the video back at its normal resolution the video image is pretty tight. As you go larger you will start to notice the image getting a little soft and slightly pixelated but even at full screen view you are left with an image that is totally watchable.

Brazzers takes the minimalist road with regards to their video files. All video content is offered as either a .wmv file or an .mpeg file. Both Mac and PC users should be satisfied with these choices. They also have made every effort to make their site accommodating to both broadband and dial-up users. For example, each of the scenes can be downloaded as a full file (whole movie in one shot) or in 55MB clips which gives you about one sixth of the movie at a time. Either way, these files are geared toward broadband users.

For dial-up users, Brazzers has segmented all of their scenes into short one-minute clips. These clips average about 15MB each and are easily handled by a dial-up connection. The one-minute clips are also a great way for all users to be able to see what to expect from a scene at a quick glance. Then, if you are only interested in watching a doctor give a girl an anal exam, you can specifically download just that content.

Brazzers is clearly a site that focuses on video content, but like all good porn sites, they have included a still photo library to round out your collection. These high quality photographs have been professionally shot and posed and will download at a resolution of 800x600 on average. If you keep a still photo collection, these will make worthy new additions. Just for kicks, Brazzers has also thrown in hundreds of screen captures for your viewing pleasure as well. These are shot at a much lower resolution and typically come direct from the camera shooting the live action. Therefore, they provide an image-by-image view of all the best sex caught on tape.

Navigating the site is a no brainer. Brazzers has set up their site to work off a series of tabs. These tabs are located at the top center of the page and you simply click on the content you want to see. Instead of having to use your back button to go from photos to video, you would just click your selection and presto you are there. It couldn't be easier.

Get the doctor to kiss it and make it better.
