## Introduction:

Food Bangers is a [Weird Sex](#) , [High Def Porn](#) site. Food and fun go great together. And sex is also fun, when done correctly. So say hello to a group of people who combined these two guilty pleasures to create FoodBangers, a website where food, fun, and sex combine into delicious and calorie-burning sex sessions

## Review:

The quickest way to a man's heart is through his stomach, right? And if not his stomach, then definitely his cock. So if you find yourself in doubt, why not combine food with sex and make him love you for life? That's what the girls at [Food Bangers](#) have discovered, and they get themselves off too by preparing and serving a sex-filled menu to their men.

You'll be treated to 15 exclusive and delicious episodes at [Food Bangers](#). The site tour gives you a really good indication of what you'll get to see in the members area, since the first image you'll see is a close-up of a Cornish hen stuffed with cock! You see, this site goes way beyond the previously accepted food-and-sex pairings like whipped cream and hot fudge (though you will see some of that, too). But more than likely you will be amazed at the creative and perverted minds that bring you Episode 3, where you can see a cock-dog and pussy-burger be eaten with a side of semen, or Episode 9 that shows a spaghetti and meatball dinner topped with a creamy homemade special sauce. Hands down, this is one of the most creative porn sites out there.

There are currently 10 exclusive FoodBangers.com videos that are all available for download in full HD. The HD file is a 1280 x 720 mpeg that is crystal clear, and will make your stomach growl and your cock stiffen at the same time. If you're not equipped to handle the HD download, then three other formats are also available, including a .wmv and .mp4 for portable devices. The videos range between 15 and 20 minutes, and unlike the food that eventually gets digested, you can keep this videos forever because they are not protected with DRM. You can even stream the videos straight from the website.

There are 15 high quality picture sets at FoodBangers that contain anywhere from 75 to 200 photos. The size and quality is also impressive at 800 x 533 resolution. The pictures tend to focus on closeups of both the food and the sex, and the last few always give you a great view of the food coated in spunk as the slut swallows it down. You can even view all 200+ pictures on a single contact sheet at once if you like, which is a nice feature that will save you some surfing time.

Unfortunately, the FoodBangers main members page can leave a bad taste in a first-time visitor's mouth. The site offers a lot of extras in addition to the exclusive content, but the main course is a bit difficult to find. I'll save you some time by telling you to head over to the "Featured Series" tab to get to the good stuff.

Once there, the exclusive content is available to be previewed in two different formats. You can view the menu as either a single thumbnail representing the action, the runtime of the video, and the episode number all on a single contact sheet. Or, you can treat yourself to an appetizer-like view of 10 thumbnails from the scene, the names of the stars, and a short descriptive blurb of the action. Either way you'll just want to start digging in.

FoodBangers.com is unfortunately no longer updating with exclusive content. But to keep whetting your appetite, they update the site daily with premium scenes from mainstream XXX DVDs that are available to download. Full members are also able to access a network of sister sites that has hundreds of more exclusive videos and picture sets in a variety of different flavors. And after you sample the foodbangers menu for a bit and find what you like, the whole network has been indexed and is fully searchable. Think of it like XXX take-out with virtually zero delivery time!

A full meal of [Food Bangers](#) currently costs \$24.95 per month, which is a really good deal considering all of the extras you can get, and the originality of the exclusive content. You can also order up a 3-day sample to the site for only \$4.99, but that's definitely not the house-special. If you don't cancel before the trial expires, it automatically renews at a fattening \$39.95 monthly rate! After you see that on your next bill, you may need a few antacids.
