White bitches, Asian bitches and black bitches, it don't make no matter. Knocturnal will pimp them all out for real. You owe it to yourself to see how real Hos do the dirrrty, and [HardcoreGangstas](#) is not to be missed. The basic premise is that Knocturnal is running a stable of Hos that fuck and suck at his command. He's got some lucky friends fur sure yo. One guy gets to fuck a little blonde bitch as his crew watches from the hoods of their pimped out rides. Grab your cock and step up to [HardcoreGangstas](#).

Cummin' at you with 27 videos, [HardcoreGangstas](#) is where it's at. You can download all the hardcore action as either a HighSpeed DVD quality video file, a HighSpeed Standard Video file or a LowSpeed video file. The DVD quality file is going to offer you the best image quality but it must be downloaded as one large file. These files can average over 350MB each so a broadband connection is necessary.

The HighSpeed standard video quality is generally good and averages about 350 x 240. If you watch the image at normal size you will find the image very clear. If you choose to enlarge the image during viewing, you may experience some blurring and pixilation. The high-speed video files average about 27 MB and are easily downloaded with a broadband connection.

The lower resolution files average about 230 x 160. They are available at 56 KBPS and 128 KBPS for the .wmv files and 350 KBPS for the .mpeg file. If you watch these files at their normal viewing size the image is ok. When enlarged, there will be some pixilation but this should be expected of a lower resolution file. The average size of these smaller clips is about 12MB so they are dial-up friendly. All videos are offered in both .wmv and .mpeg to accommodate both Mac and PC users. The DVD download is currently only offered as a .wmv file.
