

Review of [I Love You Melanie](#)

by the Stroke King's [Adult Reviews](#)

Introduction:

I Love You Melanie is a [Solo Girls](#) , [High Def Porn](#) site. Solo girl sites really are all about the girl herself. If you aren't excited to see the girl on the tour page the site is doomed to failure but if you take one look at her and just have to get to know her better... the only place you can find her is inside that members area. I Love You Melanie is one of those rare girls who is so sexy, so willing to try hard and so able to please her audience.

Review:

Standing nearly six feet tall with legs that seem to go on forever, Melanie is a professional dancer (real dancer... not stripper). She is trying her best to make it in the competitive world of screen and stage but it is never easy to become successful as a mainstream performer and she has never been a very good waitress. The Hardcore Network stepped in and made Melanie as simple offer. Fuck, suck and get nasty on your own official website and we'll help sponsor your dream of becoming a dancer so you can practice every day instead of working some dead end job along the way. It was a perfect match and this website is the exciting result.

[I Love You Melanie](#) features 22 videos already and new ones are being added at the rate of two per week! These are not the ordinary videos you see on other sites, these are exclusive super-HD offerings in resolutions as high as 1440x1080! That means you can watch them full screen on any monitor or television with perfect clarity and zero pixilation. If you don't really understand the significance of those numbers I strongly suggest you take the tour of her site for free and download one of the trailer movies included on it to see what I'm talking about. The quality is amazing!

As for [I Love You Melanie](#), she has the prototypical "dancer's body" ... long and lean with perfect lines and a graceful sense of movement that most women lack. She is so feminine and yet so powerful that the conflicting characteristics catch many men off guard at first. She also has these adorable pink braces on her teeth because she is trying to improve her looks even more for television and stage work auditions. However, don't let her clean looks fool you. Inside this graceful swan is the filthy mind of the ugliest duckling you could ever meet!

Melanie is a willing ass to mouth slut, she loves getting her holes pegged by a cute female friend with a strap-on and from what the people at The Royal Vault have told me they can't seem to come up with an idea

too crazy for Melanie to try. She even did the [AssSmoothie](#) (a filthy sex trick featured on one of the other networked sites).

If you like what you see when you take the tour keep in mind that you will also get full access to 19 other websites with your membership. The other sites are a fantastic combination of adorable solo girls like Celeste, Mya and Madison along with niche sites like Stop the Camera and some real oddities like Fuck My Flab and Her Last Fuck. The total collection updates more than 20 times every week which means your dick will always have something new to do when you login.

One drawback of the site is that it is a bit more expensive than some of the other ones out there. A two day trial is available for \$4.90 but the monthly membership comes in at \$34.90. On the one hand it does cost a few extra bucks but on the other hand it makes sense that it would. They offer 1440x1080 video like no other sites out there and the network includes 100s of hours of top quality exclusive video you can't get anywhere else. Put simply, that kind of quality costs a little more... and your dick is worth it!

As an added personal bonus, your membership gets you access to Melanie's personal blog entries and you can also visit the included private message board where Melanie actually shows up from time to time along with the other I Love You Girls for fun and discussions involving all of the network's members. It's actually a pretty cool place to hang out and get to meet the online chicks you can normally only fantasize about.
