She likes to have fun in front of the camera and it definitely shows in each of her updates. Review:

[Jordan Capri](#) is only 18 and daaaaamn does she have a slammin' body! Fresh out of high school she is starting to explore her own sexuality and letting you share in her teen pleasures. Most of her content is softcore showing Jordan playing with herself or her girlfriends in a very innocent way... but Jordan has a wild side and it's finally exposed in her first hardcore performance on honeymoon tapes she made with her first husband! Her perfect little pussy gets a pounding doggie style and her box is so tight you can see how it clings to his cock with every thrust and pull.

With 89 videos posted to date, Jordan has been a busy little beaver. Her videos are a potluck of material ranging from masturbation scenes, some lesbian snuggling and dry humping to sexy member requests like Jordan painting her toenails. Scene lengths vary but most range from 4 to 8 minutes long.

Kudos to the Lightspeed network for presenting their video clips in such a wide variety of formats. Users will find files available for download in Windows Media format, MPEG format, Quicktime Format and even Ipod/PSP format or mobile 3g2 format for perverts on the go!. Each of the clips hovers around 25 to 50MB each depending on what format you finally decide to download. Although these file sizes are all easily handled by a broadband connection, dial-up users may find the files take quite some time to download.

At \$39.95 a month, membership to JordanCapri is a bit on the pricy side but when you look at the whole package that Lightspeed is putting together for you, it turns out to be a decent bang for your buck. When you join JordanCapri and choose the executive package you get instant access to 30 other sites all featuring Lightspeed's hottest teen girls. [Tawnee Stone](#), [XXX Raimi](#), [Taylor Little](#), [Little Trouble Maker](#), Dirty Aly, [Faith Lightspeed](#), [Ashley Lightspeed](#), [Tori Stone](#), [Dana Lightspeed](#) and [Rachel 18](#) are just some of the sites included in your monthly membership.

Video resolution for the video content on JordanCapri is 480x360. When played at its normal size, the image is OK. At this resolution don't expect to enlarge the image all that much during playback. The larger you stretch the image, the more you will start to notice pixilation and blurring but at standard size without any zoom the files look pretty good.

The design of the JordanCapri website is pretty straightforward but it may take newbies a few minutes to find their way around. The main page for each girl features sections for 'special features'. For example, JordanCapri opens with lists for recent updates, most popular, and guest appearances but it doesn't tell you if the recent updates are photo sets or that the 'most popular' is a mixed bag of both video and photo content. Guest appearance links uses offsite links to other Lightspeed girls' sites that Jordan has had a guest appearance on. Once members get used to these things the site works great but it can be a little confusing at first.

Another strong point worth mentioning is the photo content on JordanCapri. There are hundreds of hi-resolution photos presented at 800x600 and higher for your viewing pleasure. Professionally shot and posed, they are a big part of what makes up the content on the site. The shots with the higher resolutions will make great additions to any photo collection that you have going.

Your cock will have a hard time finding a cuter teen than JordanCapri
