by the Stroke King's [Adult Reviews](#)

## Introduction:

Midnight Prowl is a [Reality Porn](#) , [Orgy](#) , [Gang Bang](#) site. Sometimes it pays to hang out in porn shops and dark back alleys, especially if you catch the MidnightProwl. Cuming to you from the city of angels, watch as these porn stars fuck average joes lucky enough to be at the right place at the right time. Black, Asian, Spanish, Pillsbury Doughboy look-a-likes; to these starlets what the guy looks like doesn't matter at all... as long as he is hard!

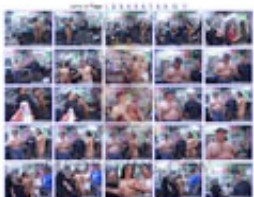

## Review:

Why am I never this lucky? These philanthropists of porn get hot and sexy starlets to agree to fuck and suck total strangers that they find on the streets. The girls are hot, and the guys are lucky fucks that don't let the opportunity go to waste. This is their chance to live out their fantasy of being a stunt cock in a porno. You've got to see this, there is nothing else like [MidnightProwl!](#)

[MidnightProwl](#) rocks the internet with 197 videos proving it's not hard to find guys off the streets that are willing to fuck porn stars. And they are currently updating; proving they can still find guys off the streets willing to fuck porn stars. The video quality is decent with the larger files being presented at 512 x 288. When enlarged double size there was some slight pixilation but the image is still clear. The lower resolution files average about 276 x 200 so once again, you will see some blurring and pixilation when enlarged. Scenes are offered in both .wmv and .mpeg format with the .mpeg files being slightly larger and producing a better quality image.

The high resolution files are about 50 MB each so if you plan on downloading these a high speed broadband connection is necessary. Not to discriminate against those out there using dial-up, the lower resolution files are much smaller averaging about 16 MB each.

[MidnightProwl](#) brings to members full length and exclusive content that you won't see anywhere else on the net. This means the material should be original stuff you haven't seen before. Scenes

are long and average about 30 or so minutes each so there is close to 100 hours of reality banging for you to jack off to. If you're a collector of smut, there is no DRM encoding used so anything you download is yours to keep.

One of the things I found hysterical about the site was that these chicks would take a shot of strangers cum to their mouths then be asked by the "director" to hold a lighting screen to filter the light just right for the cum photo shots. So it was no surprise that there are hundreds of high and lower resolution photographs for you to check out.

[MidnightProwl](#) is brought to the internet by the MeatMembers. When you join [MidnightProwl](#) you will be granted instant access to their web network which includes free access to over 40 of their other hardcore sites. [BlackCrackAddicts](#), [DirtyFuckDolls](#), CumFilledMouths, FrankWank, TopNotchBitches, [SquirtBukkake](#), RiotWhores, RustyTrombone, HellFireSex, BlowjobQuickies, AnalCumJunkies, [GaggingWhores](#), ChixInTheMix, AnarchyArchives, and CumFarters are just small sampling of the sites that you get included with your membership. To join the network, it will cost you \$29.95 a month or \$59.95 for 3 full months of access.

These are some lucky motherfuckers. Classic site.
