

Review of [Milfs Exposed](#)

by the Stroke King's [Adult Reviews](#)

Introduction:

Milfs Exposed is a [Milf](#) , [Mature](#) site. MILFs. You see them everywhere, like in the supermarket, commuting to the office, and jogging in the park. I'm talking about attractive, everyday women who strut their stuff in a tasteful way, are between the ages of 30 and 40, and are just ripe and ready for a hot sexual adventure with a younger stud.

Review:

Women's sexual appetites blossom with age, so if you want to find a lady who looks good and knows how to fuck, then you better find yourself a hot MILF. The boys at [Milfs Exposed](#) find their women by going about their everyday business, and then convince the MILFs to have sex with them. Not a bad way to spend the day, eh?

You are currently able to view 63 exclusive episodes as a member of MILFsExposed that feature both video and picture content. The videos are available as full length downloadable files in three different formats. The best quality option you have is an XVID encoded .avi file that presents the action in an impressive 576 x 432 screen-size. You can also select a mid-quality .wmv option, or a low-end .mp4 format. And once you download them they are yours to keep forever, because no DRM of any kind is used. If you'd rather not download the whole video, or preview it before you do, then you can also stream it from within an embedded flash player.

The videos feature a nice variety of women, sets, and setups. Some of the action takes place in a standard hotel room, others on a couch, and some are filmed in non-standard settings like offices or kitchens. One of the hotter scenes is Episode 39, where you can see the lovely Luna, a slim brunette with a perfect heart-shaped ass and long killer legs, play the role of a real estate agent who fucks her client to get him to sign a lease.

Every MILFsExposed.com episode also offers hundreds of high quality digital pictures that follow the same storyline as the video. Each picture is presented in 800 x 533 resolution, and you can view all of the pictures for each set on a single contact sheet, if you wish. Most of the sets also feature the MILF posing in sexy outfits before she gets down and dirty with her young stud.

Now unfortunately along with old age, comes some confusion. So it seems that the site designers went a bit

senile when laying out the main members page. There are a lot of available options which are nice to have, but the main attraction, the exclusive MILFsExposed content, is a bit hidden. After a few clicks you should be able to figure out that it's all contained under the Featured Series banner.

And once there, you can preview each scene in one of two different ways. The brief overview option will show you only a single thumbnail of the MILF being exposed, along with the full runtime of the video, and its episode number. If you see someone that you like, then head on over to the Full preview mode, where you'll then be presented with 10 thumbnails, the name of the MILF and stud, the date it was uploaded to the site, and a short description of the scene.

MilfsExposed.com - they aren't just sexy moms.

Scoring:

DESIGN, EASE OF USE: **7.0/10** (. Members access needs a redo)

CONTENT DELIVERY: **7.0/10** (.)

CONTENT QUALITY: **8.0/10** (Great quality.)
