

Review of [Rachel18](#)

by the Stroke King's [Adult Reviews](#)

Introduction:

Rachel 18 is a [Teen](#) , [Solo Girls](#) , [Lesbians](#) site. Poor little Rachel. She just turned 18 and feels nobody ever notices her because she is just a cheerleader. This demure and sexy brunette with a perfect fucking ass decided to do something about it. She started her very own website on the Lightspeed Teen network so she could show the world what she is made of and your cock will want to make a bee-line for Rachel18.

Review:

[Rachel18](#) appears to be one of the newer sites in the Lightspeed Teen network's line-up. She does not have a huge amount of content posted yet, but what she does have is first-rate stuff. [Rachel18](#) tends to rely heavily on the whole cheerleader theme so if you like to see girls in super short skirts hi-kicking for you this is a site you'll want to hit. Best part is that once her routine is done, she pulls those panties aside and spreads her lips apart giving your cock something to cheer about.

When you join [Rachel18](#) you are entering into a membership with the Lightspeed Teen network. This is great news for you since your membership will allow you to visit other sites in their network for free. The premium package is \$39.95 a month and this gives you access to over 30 of their other sites. All of the girls in the network are super hot and they all range in age from 18-20 years old. They also can't keep their hands off each other so there is a ton of hot girl on girl action to get your cock cocked. [JordanCapri](#), [LightspeedSorority](#), XXXRaime, [FaithLightspeed](#), LightspeedUniversity, [Reel18](#), [DanaLightspeed](#), [LittleTroubleMaker](#), [ToriStone](#) and [AshleyLightspeed](#) are a few examples of some of the other sites you will have access to with your membership.

[Rachel18](#) is currently updating every week on Sunday's so the site is adding content at a steady rate. As a new site, [Rachel18](#) does not have the huge back catalog of material that many of the other sites in network have. But the good news is that your membership allows you to visit so many other sites in the network that your cock will be kept more than happy. Since August of this year, [Rachel18](#) has managed to post 20 sets of photos. They are all professionally shot and posed so the images are first rate. The average resolution is 700x520 so you may not be printing posters out, but they are good enough to add to your permanent collection.

Lightspeed Teen network posts all its video content at a resolution of 480x360 and [Rachel18](#) is no exception. So far she has just 5 videos posted but since the site is updating weekly, I expect more video will be added as time goes by. When the video content is viewed at its normal and intended size it will give you

a pretty good image. But 480x360 is not a super high resolution so as you expand the image toward a full screen view, some pixilation and blurring takes place. But even at a full screen view the content is still watchable.

Lightspeed treats its members like royalty when it comes to offering a wide variety of download options for its video content. You will be able to download video clips as .wmv, .mpeg, Quicktime, ipod/psp, or mobile 3g2 files. The .wmv files and .mpeg files present the scene as a full feature (whole movie uninterrupted) and as a segmented file (whole film chopped into smaller scenes). A full file will average 30 to over 100Mb so these are really geared toward broadband users. But the smaller segmented scenes are perfect for members with dial-up connections since they average about 9MB each.

Once you sign-up for membership, your adventure begins at the Lightspeed Teen network hub. All of the sites that you have access to will appear unlocked indicating that the girls are waiting for you. Once you decide which girl you want to see, all you have to do is click her link. You will instantly be transported to her individual site from which you can begin downloading till your cock is content.
