

Review of [Stuffed Petite](#)

by the Stroke King's [Adult Reviews](#)

Introduction:

Stuffed Petite is a [Petite](#) , [Short](#) , [Skinny](#) site. There are a lot of sites out there that focus on one type of girl or another. Blondes, brunettes, redheads, black chicks, Asians, etc... but this is the first one that had the great idea to feature tiny petites. Five feet tall and one hundred pounds or less, anything more than that and the gal is disqualified from the site completely. That's tight.

Review:

Pornstars are used to getting whatever they want from men. They're pretty, they have bedroom skills and they really know how to work it. Still, it gets annoying to have them acting like they are always so damn desirable. [StuffedPetite](#) turns the table on them by putting in some requirements that most adult actresses will never be able to meet. Five feet or less? Under 100 pounds?

Those are some tough specifications to qualify for and the list of super-hot chicks who have what it takes is really a lot smaller than you might think. Even so, [StuffedPetite](#) has already found 29 pint-size pussies to pound on this site and there are more showing up at the weigh-ins every day!

In some of the scenes they even show you the long line of porn whores hoping to be less than the maximum stats for the site and watching them get sent home for being too tall or too heavy is great revenge for guys who have been spurned by sluts like these somewhere else before.

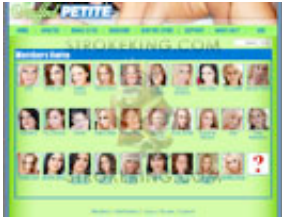

Once an acceptable ass, mouth and pussy are found the site kicks it into overdrive as these tiny sex stars spread as wide as they can and get driven deeper than they ever thought possible. It's all captured in crystal clear 640x480 videos and there are lower resolution versions available for dialup users as well.

One thing I like about the Blazing Bucks sites is that they don't skimp on resolution and quality. A lot of sites nowadays, despite bandwidth being cheap and having no real excuse to serve up low resolution photos - still do.

See a facial expression you can't believe? Go ahead and visit the picture gallery where the images are in magazine quality 2000x1500 and show you every freckle, dimple and dirty look these sultry munchkins shoot at the camera!

Along with all the action on this site you also get access to: [Throated](#), [OnlyTeenBlowjobs](#), [MeatMyAss](#),

[1000Facials](#), [LoveYourTits](#), SweetLeahLuv and ShareMyCock along with some other bonus content and features like site blogs and starlet interviews as well.

Another great part of the [StuffedPetite](#) site is the lengthy scene description text that really explains everything that happens in these movies. It makes it a lot easier to find what you want without downloading a lot of junk you dislike. That kind of attention to detail is what makes a quality site like this one well worth the price of admission.

Overall, good design, high quality content and ladies that would appeal to most red blooded guys. Great site.
