

Review of [The Big Swallow](#)

by the Stroke King's [Adult Reviews](#)

Introduction:

The Big Swallow is a [Facial](#) , [Cum in Mouth](#) site. Nine out of 10 men would probably agree that nothing feels better than blowing a mega load of spunk right down a whore's throat. And a good whore would swallow that wad right down into her belly. If you're sick and tired of watching hot fresh protein go to waste as it slides down a slut's chin, then pay a visit to TheBigSwallow, where the whores all appreciate a good meal.

Review:

Not all blowjobs are created equal. I don't care how much a whore works to milk the spunk out of you, if she doesn't swallow the load, then it could have been better. All of the freaky sluts at [TheBigSwallow](#) know this, and they make sure they don't miss a drop during any pop - as they suck the splooge right from its source.

The site has a nice clean design that makes new episodes easy to find. Right now there are 56 exclusive spunk-swallowing scenes at [TheBigSwallow](#). That's a nice amount of content, but the site has been around since mid-2004, so the updates have been pretty erratic, with more than a month sometimes passing before a new scene is uploaded.

Quality usually counts more than quantity, and the scenes are generally really hot. A typical scene clocks at over 30 minutes, with the slut at first given a short interview where she tells us all how much she loves to swallow sperm, and soon after we see her prove it. The money shot is usually a nice close-up where you can clearly see the spunk swimming in her open mouth. Most of the girls also play with it a little bit before they gulp it down.

Each video is available as full length .wmv stream in three different speeds. The newest episodes also have an embedded Flash stream option that is a bit larger than the .wmv files. If you want to skip the sucking and fucking, and go straight for the spunk drinking, you can also stream 60 second portions of the video that are laid out in a nicely presented storyboard.

If you prefer to watch a specific whore gulp her sperm over and over, the full length videos are also available to download as a .wmv. The newest videos are available in 480 x 360 resolution, but most of the site uses 360 x 240. There is no DRM, but [TheBigSwallow](#) does have a 6 scene download limit per 24 hours.

Picture sets are also available for every episode. Vidcaps for every scene provide a nice preview of the video action. Digital stills are also included for each of the episodes, which start off with the slut posing and undressing, and end up with the money shot. Newest scenes have digital stills in 900 x 600 resolution which is very nice. But most of the older content uses 600 x 400 resolution.

A full monthly membership to [TheBigSwallow](#) currently costs \$29.98 per month with a credit card. A limited trial membership for three days costs \$4.95. I recommend you go right for the full monthly membership, because the price is very reasonable, considering full membership also grants access to the following exclusive sites: [BarefootManiacs](#), [HornySpanishFlies](#), [BigCockTeenAddiction](#), [BusStopWhores](#), [RoundMoundofAss](#), [XXXProposal](#), XXXAction.com, [MrChewsAsianBeaver](#), [BigTitPatrol](#), [BigLeagueFacials](#), [ISpyCamelToe](#), [LesbianTeenHunter](#), [PleaseBangMyWife](#), [PimpMyBlackTeen](#), NastyMovieMadness, [BlindDateBangers](#), [CollegeTeensBookBang](#), GiantsBlackMeatWhiteStreet, [MrBigDicksHotChicks](#), FilthyFredAmateurs, [CastingCouchTeens](#), [SeeHerSquirt](#). and [TinysBlackAdventures](#).
