

Review of [Third Movies](#)

by the Stroke King's [Adult Reviews](#)

Introduction:

Third Movies is a [Mega Sites](#) , [Adult DVD](#) site. 3rd Degree Films is a lesser-known DVD studio that has been pumping out top quality porn for years. Strangely, even though they had been making some of the best movies on the market, they always had distribution problems that made them a rarity in most adult video stores. Now all of that has finally changed! 3rd Degree cut a deal with Zero Tolerance and now offers all of its content online as part of a joint package.

Review:

3rd Degree has been making true hardcore smut for years and some of the nastiest titles around are 3rd Degree productions. Movie series like AssCream, Black Thai Affair, Cum Beggars and Sloppy Seconds have made 3rd Degree one of the most sought after studios in the DVD market. However, even with 1,063 scenes filmed it is quite possible you have never heard of 3rd Degree before... because they had a hard time getting distributors to help them move their product from their warehouse to store shelves.

Now, in a bold move, 3rd Degree has signed up with Zero Tolerance Online and both studios have agreed to host their entire DVD collections online as a shared venture. That means if you sign up for the 3rd Degree site as a monthly member you get to watch or download all 1,063 3rd Degree scenes along with the 1,567 scenes on the [ZTOD](#) site as well! Even better, StrokeKing has learned that a new site will be joining the network shortly, Black Ice will feature all the best ebony and interracial action as well!

If you take a tour of the site you will be able to see all of the DVDs included in the members area. In fact the tour is identical to the members area which means you get to know exactly what your porn purchase includes before you ever spend a penny. The only difference between the tour and the member areas is that you can't download anything until after you sign up obviously.

Picture sets are also included on the site featuring all the top name pornstars that have performed for 3rd Degree movies. That's 1,000s of high-res images that you can browse through and enjoy online or download as offline stroke material like desktop wallpapers, screensavers and slideshows.

Years of going to the videostore to pickup new VHS tapes or new DVDs may have convinced you that was all necessary. The fact is, you can now get access to much more smut at home without even putting on your shoes than you could ever get from any local shop down the block. Even better, the cost of packaging,

shipping and mark-up has all been removed because the movies are being sent to your digitally at a much reduced expense to the studio. That means they can charge you the same amount for all of their movies as you are used to paying for just one DVD at the store. Anyone new to online porn is well advised to start with a site like 3rd Degree because they know what DVD buyers expect and that allows them to make the transition from offline pervert to online porn fan much smoother than you might expect.

Offering this much top quality content for \$29.95 a month makes 3rd Degree a great bargain but unlike most bargains, 3rd Degree doesn't cut any corners or leave any innovations off the table. This is a site that continues to evolve with new content sorting, favorites and search capabilities while new movies are added two or three DVDs at a time every day.

3rd Degree has finally solves their distribution problem by selling content directly to you.
