Introduction:

Tug Jobs is a [Handjob](#) site. Love when a girl tugs your slug? Then TugJobs is one site you won't want to miss. These girls love to work cock with their soft and supple hands. Your skin soldier will be standing at full attention as these girls tug, tease, rub and stroke cock.

Review:

I'll admit it. I'm a sucker for the BangBros network of sites. It seems to me they know what they're doing and they do it well. TugJobs is another BangBros site that has little cum magicians doing their best to show off their sleight of hand skills. As the title suggests, [Tug Jobs](#) treats members to some of the hottest wrist-blistering handjob girls on the net, each working hard dick with their sweet, soft palms and firm white knuckle grip. We're not talking girls copping a feel in the back of a Buick. these girls grab on like they are hanging from a cliff face and your dick is their safety rope.

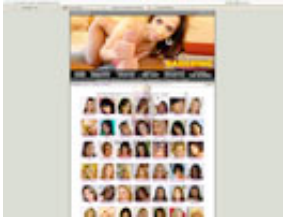

With over 193 videos already posted, TugJobs offers members 45 hours of handjob action. Video quality is excellent in format sizes as large as 640 x 480 resolution . TugJobs also updates every Monday so there is new knuckle action every week for members. Keep in mind that the title is true, you won't see much sucking or fucking on this site.but there is plenty to be found on the other sites included with your membership on the rest of the BangBros network. Your cock will be pleased to know that all of the content is entirely exclusive to TugJobs so every yank and twist it sees is one it will be enjoying for the very first time.

Full length videos on this site tend to be a little shorter than the standard 20 or so minute average. A standard video on TugJobs runs anywhere from 8 to 16 minutes because let's face it, when a chick is tugging your meat you want to cum before she gives you a fucking Indian burn!

Clips can be downloaded in large broadband friendly segments that average about 20MB each or as smaller one-minute clips that hover around the 7MB mark. The one minute clips are also a great way to quickly see what kind of action you can expect from a larger scene without using much hard drive space to find out. All files are available in either .wmv or .mpeg formats. Streaming clips are available as well if you want to avoid having a nosey family member finding out what you have been up to at your PC all night.

Every scene on the site is accompanied by high quality, downloadable photographs. At 600x800 you may not be printing posters, but the photos are well worth adding to your collection. Not forgetting the dial-up

contingency, there are hundreds of screen captures available for download as well. Although the file size is smaller (650x480) the images are still clear enough to help you tug out a batch.

TugJobs is worth the monthly membership price as a stand alone site for true fans of the handjob. As part of the Bang Brothers network, the deal only gets better. Not only do members have full access to Tugjobs but they also have full membership to a number of the Bang Brothers' other sites: [BigMouthfuls](#), [BangBus](#), [BigTitsRoundAsses](#), [BallHoneys](#), MomsAnal, [AssParade](#), [MonstersOfCock](#) and [MilfLessons](#) are all included in the monthly membership to TugJobs. When added together these sites provide members with fresh content daily and access to hundreds of hours of top quality porn.

Membership to TugJobs costs \$23.95 a month if charged to a credit card and \$29.95 if you pay by online check. You can check out the site for a three-day trial at \$4.95 but if not promptly cancelled this will renew at \$39.95 a month until cancelled. Put simply, if you can pardon the pun. the limited trial is a total jerk off, go for the full month and save yourself some frustration.
