Introduction:

XXX Porn Parties is a [Sex Party](#) site. And you thought your frat house threw crazy parties... Experience first hand the sights, sounds, and crazy fucking that goes on when porn stars party. Sloppy, drool dripping blowjobs, ass pounding anal and a bunch of ram rod fucking awaits you when you join XXXPornParties.

Review:

Fuck the saying party like a rock star. They can't compete with a hardcore pornstar party! Its a no brainer that when you mix booze, hot and horny pornstar babes, guys with huge cocks and crowds of voyeurs someone is going to wind up getting laid. This is your golden ticket to get inside some of the craziest parties on the planet, so don't miss [XXXPornParties](#).

Launched 7/18/07 [XXXPornParties](#) is a relatively new site. At 15 videos and counting your cock won't forgive you if you pass on this invite. All the party action can be downloaded as either a HighSpeed DVD quality video file, a HighSpeed standard video file or a LowSpeed video file. The HighSpeed DVD quality file is going to give you the best possible image but you must download the whole scene as one large clip. These files average about 350MB or so making a broadband connection necessary.

The HighSpeed Standard video quality is very good and averages about 320 x 240. When watched normal size you will get a tight and well defined image. If you choose to enlarge the video during viewing, you will experience some blurring and slight pixilation the larger you go. The high-speed video files average about 25 MB and are easily downloaded with a broadband connection.

The lower resolution files average about 230 x 160. They are available at 56 KBPS and 128 KBPS for the .wmv files and 350 KBPS for the .mpeg file. I like the variety as it allows you to tailor your download experience. These lower resolution files are fair when watched at their normal viewing size. If enlarged, there will be some noticeable pixilation. The average size of these smaller clips is about 12MB so they are very dial-up friendly. All videos are offered in both .wmv and .mpeg format allowing both Mac and PC users to enjoy the content.

All footage on [XXXPornParties](#) is full length and exclusive so the material should be fresh to you. Scene lengths average about 25 minutes, so there is already over 6.5 hours of pornstar popping action available to you from this newbie site.

This party is easy to navigate. Each page contains 5 videos available for download. For each video, there is a brief description the scene, its run time, the names of the stars featured in the scene, and how many hi-resolution photos accompany the clip. The still photos are presented at 720 x 480 pixels, so the party guests made sure they spread their legs wide for the camera.

[XXXPornParties](#) is a production of the PornstarNetwork. They have put together a very generous offering for new members.
